

HOW TO GET YOUR RESEARCH PUBLISHED IN THE BEST JOURNALS?

A two-day course on scientific writing in medicine
Oslo, June 16-17, 2025

ABOUT THE COURSE

- All aspects of preparing a manuscript, such as planning, writing text, title and abstract, and constructing tables and figures, will be covered.
- The course is highly interactive, with course participants working in small groups and receiving individual feedback on their own writing, figures, and tables.
- The course faculty consists of experienced editors and researchers, most of whom have published in leading medical scientific journals.
